

Mild-alkaline, extremely dense special foam with fresh fragrance that prevents limescale and slime build-up in pipes

This foam concentrate is specially designed for use in self-service areas, as it outperforms standard foams with its velvety, dense appearance. The EV300 – self-service foam EVENTUM Pro from Dr.Stöcker offers the user an exceptional foam and fragrance experience, while you as the system operator benefit from higher revenues.

Now with a new limescale and slime protection effect: In combination with washing chemicals, highly calcareous washing water can lead to slime and limescale formation in valve blocks and pipes. The EV300 can prevent this effect with the integrated protection formula against limescale and slime build-up.

Application / Dosage

Dosage in washing systems: Foam sheet 5 – 10 ml, foam wall 12 – 20 ml

In pre-spray lances: 1 to 3%. Can be applied via High-pressure lance, foam brush or foam lance. The use of special foam nozzles/lances is recommended.

Max. Exposure time

According to VDA-guideline: max. 5 minutes.
Do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 525312

Bag-in-Box, 20 l
Art-Nr.: 525342

EasyPack, 4 x 5 l
Art-Nr.: 525320
