ECOPRO Active Pre-cleaner – strong alkaline pre-cleaner for process water optimisation

With its pronounced foaming action, it removes quickly and thoroughly problematic soiling such as static dirt films, grit residues, tree sap, bird droppings and dried insect remains. This makes it particularly suitable for prespray bows or lances and high-pressure equipment. NEW: Now also with **AQUALIFE Effect**: Products with the integrated AQUALIFE technology act as concentrated feed for the microbiology in the biological service water cycle. This reduces turbidity and the water remains clear. In addition, the iron content and the chemical oxygen demand are reduced. The result: You can use your service water for much longer and save precious fresh water. In addition bad odours disappear.

Application / Dosage

Dosage: 2-3 % in the pre-spray arc, 4 to 8 % in the pre-spray lance for insect removal, 8 to 10 % for problem soiling such as tree resin or dried bird droppings.

Max. Exposure time

If the surface temperature is high, it is essential that the surface cools down.
Do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 340212

Product properties

- strong-alkaline
- for problematic soiling
- fast, powerful and thorough
- also ideal for pre-spray lances and high-pressure equipment
- certified with the Nordic Swan Ecolabel
- ideal for biological water treatment systems

Technical data

- pH value: 13,7
- Density: 1,14
- Colour: light yellow, clear
- Scent: characteristic
- Frost resistance: + 4 °C
