

Alkaline powder concentrate with pleasant stawberry scent for pre-cleaning

The powerful, alkaline cleaning powder produces an intensive cleaning power that removes even problematic soiling and insects. The special mixture quickly dissolves without clumps and is free-flowing and can be finely dosed even with high humidity. Especially for high pressure machines and self-service car washes with screw conveyor.

Application / Dosage

In self-service systems, fill the product into the dosing container. Add approx. 10 to 20 g /min to approx. 5 to 10 l water (0.10% to 0.40%) per wash station (box). High-pressure equipment: Fill 1 kg of cleaning powder per 10 l of water into the high-pressure equipment.

Max. Exposure time

If the surface temperature is high, it is essential that the surface cools down. Do not allow the product to dry!

Available container types

Bag, 20 kg
Art-Nr.: 680310

Product properties

- alkaline
- especially for high-pressure units and self-service units with screw conveyors
- intensive dissolving power
- pleasant strawberry scent
- also for problematic soiling and insects

Technical data

- pH value: 10,5
- Density: 0,65
- Colour: white
- Scent: pleasant strawberry scent
