

Mild-alkaline precleaner for price-sensitive applications

This mildly alkaline, low-cost pre-cleaner with material-protecting properties is ideal for cleaning normally soiled vehicles. It offers effective and fast cleaning power against oil, grease, road dirt and dried bird droppings. The Performance Cleaner contains a water softener against lime deposits and is ideally suited for high-pressure equipment and self-service car washes.

Application / Dosage

In the pre-spray lance for insect removal approx. 7-10 %.

SB In the self service pre-spray lance approx. 5 %; for high-pressure devices pre-dilute 1:5 (chemical:water).

Max. Exposure time

If the surface temperature is high, it is essential that the surface cools down. Do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 530012
