EP500 – Foam Gloss ECOPRO

Web: https://www.dr-stoecker.de/en/products/car-wash-chemicals-products/preservatives/foam-gloss-ecopro-ep500/

High-performance foam preservative for process water optimisation

Thanks to the voluminous foam pattern and the dense and mirror-smooth surface preservation, an impressive gloss effect is produced with simultaneous protection against particularly aggressive soiling such as tree sap or bird droppings. For optimum shine, apply in a foamed state and massage in with brushes if necessary. Product must be rinsed out (with water, preservative or drying aid). NEW: Now also with **AQUALIFE Effect**: Products with the integrated AQUALIFE technology act as concentrated feed for the microbiology in the biological service water cycle. This reduces turbidity and the water remains clear. In addition, the iron content and the chemical oxygen demand are reduced. The result: You can use your service water for much longer and save precious fresh water. In addition bad odours disappear.

Application / Dosage

Dosage in the car wash only approx. 8 – 20 ml. Rinsing is mandatory.

Available container types

EasyPack, 4 x 5 l
Art-Nr.: 670620

Can, 25 l
Art-Nr.: 670612

Product properties

- powerful
- extremely foamy
- only approx.8-20 ml consumption per vehicle
- dense and smooth surface preservation
- impressive gloss effect
- protects against aggressive dirt
- streak-free glass
- certified with the Nordic Swan Ecolabel
- particularly gentle on service water
- ideal for biological water treatment systems
- apply in a lather for optimum shine, massage in with brushes if necessary
- product must be rinsed off (with water, preservative or drying agent)

Technical data

- pH value: 4
- Density: 1,02
- Colour: light, clear
- Scent: characteristic
- Frost resistance: + 4 °C
