

Mild acidic shampoo with a fresh citrus scent that keeps the brushes clean and prepares the paint perfectly for drying

Due to its low acid content, the shampoo is gentle on systems and units and has no negative effects on the process water. This makes it ideal for biological process water treatment systems. As a brush shampoo, it also prevents limescale build-up on washing materials. It also binds the water hardness, which prevents limescale deposits in car washes and wash bays.

Application / Dosage

only approx. 8-12 ml, depending on brush material and system size. For problems with iron deposits, 15-25 ml as needed.

Max. Exposure time

According to VDA-guideline: max. 5 minutes.

Do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 650912

EasyPack, 4 x 5 l
Art-Nr.: 650920

Product properties

- mild acidic
- only approx. 8-12 ml consumption per vehicle
- keeps brushes clean
- prepares the paint perfectly for drying
- fresh citrus scent
- improves the overall cleaning performance of the washing process
- protects machines and aggregates
- prevents limescale deposits

Technical data

- pH value: 2,5
- Density: 1,03
- Colour: yellow, clear
- Scent: citrus
- Frost resistance: + 4 °C
