

Acidic special shampoo for systems with stubborn iron deposits

The special acidic shampoo prevents and removes yellow-brown iron deposits on walls, floors, plant technology and washing textiles. Dr. Stöcker IRON-BANG not only optimally prepares the application of dryer or preservative, but also improves the overall cleaning performance of the washing process. In addition to its use as a shampoo, the product has also proven itself as a mild hall and machine cleaner that reliably removes iron deposits.

Note: When using IRON BANG, please contact your Dr. Stöcker sales representative, who will dose and adjust the product to your individual conditions.
