

FT100 – Active Wheel Rim Cleaner forte

Web: <https://www.dr-stoecker.de/en/products/car-wash-chemicals-products/wheel-rim-cleaner/active-wheel-rim-cleaner-forte-ft100/>

Alkaline special cleaner for the removal of persistent dirt

This high-performance cleaner even removes persistent dirt like the abrasions from brake pads as well as road salt. It provides outstanding properties against crusted mud and general road dirt and also contains a special corrosion protection for wheel rims. It comes along with a pleasant scent. Double concentrated, very efficient. Not suitable for anodized or foiled rims.

Application / Dosage

Cool heated rims with water beforehand. Consumption approx. 20 ml concentrate per vehicle.

Max. Exposure time

If the surface temperature is high, it is essential that the surface cools down. Do not allow the product to dry!

Available container types
