

FT101 – Intensive Wheel Rim Cleaner forte

Web: <https://www.dr-stoecker.de/en/products/car-wash-chemicals-products/wheel-rim-cleaner/intensive-wheel-rim-cleaner-forte-ft101/>

Acidic wheel rim cleaner with a three-acid combination for persistent dirt on wheel rims

Intensive Wheel Cleaner forte provides powerful cleaning action against inorganic dirt and removes even stubborn contaminants such as brake dust, encrusted mud and road grime. Thanks to its excellent creeping properties and dispersing effect, the cleaner penetrates beneath the dirt, disperses and dissolves it, allowing it to be rinsed off more easily with water. Its reduced evaporation rate keeps the cleaner liquid and chemically active for longer, resulting in significantly improved cleaning performance. The wheel cleaner also contains a corrosion inhibitor.

Application / Dosage

Use approx. 20 ml of concentrate per vehicle.

Max. Exposure time

If the surface temperature is high, it is essential that the surface cools down. Do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 652212

Product properties

- acidic
- only approx. 20 ml consumption per vehicle
- pleasant characteristic scent
- for tough stains
- High creeping capacity
- Remains liquid and chemically effective on rims for a longer time
- with corrosion protection
- does not contain hydrofluoric acid, hexafluorosilicic acid or ammonium hydrogen difluoride

Technical data

- pH value: 0,2
- Density: 1,25
- Colour: light, clear
- Scent: characteristic
- Frost resistance: + 4 °C
