

SP702 – Hall and Machine Cleaner SF

Web: <https://www.dr-stoecker.de/en/products/facility-cleaners/hall-and-machine-cleaner-sf-sp702/>

Hydrochloric-acid-free special cleaner for the effective removal of limescale as well as greasy and oily dirt

Due to its balanced acid combination and included corrosion inhibitor, it meets the requirements of leading machine manufacturers. Its versatile effect against the typical lime deposits on hall floors, tiles as well as aluminum and plastic parts make it an indispensable helper when it comes to cleanliness in your plant.

Application / Dosage

Depending on the degree of soiling, apply undiluted or pre-diluted up to a ratio of 1:4 (chemical:water), allow to act for a few minutes. Then rinse well and with plenty of water.

Max. Exposure time

Short application time, do not allow the product to dry!

Available container types

Can, 25 l
Art-Nr.: 652012

Product properties

- without hydrochloric acid
- with corrosion protection agent
- effectively removes scale, grease and oily dirt
- complies with the standards of leading machine manufacturers
- does not contain hydrofluoric acid, hexafluorosilicic acid or ammonium hydrogendifluoride

Technical data

- pH value: 0,3
- Density: 1,1
- Colour: light pink, clear
- Scent: characteristic
- Frost resistance: + 4 °C
