

Silk-matt gloss care for all plastic parts – with UV protection

Dr.Stöcker Cockpit Care is a highly effective cleaning and care product for vehicle interiors. Specially formulated for the care and protection of all plastic parts, leather, vinyl and rubber, this product offers efficient and long-lasting cleaning. The cockpit care protects the treated surfaces from premature ageing and thus ensures that your car retains its value in the long term.

Application / Dosage

Remove coarse dirt from the surface to be treated beforehand.
Shake before use.

Spray onto an all-purpose cloth (e.g. Dr.Stöcker microfiber cloth) and rub plastic parts evenly with the soaked cloth.

NOTE:

Do not treat the steering wheel, dashboard glass, windows, textiles and pedals with the cockpit care product. Protect from frost.

Repeat application every 4 to 6 weeks.

Available container types

1 box of 20 pieces
150 ml
Art-Nr.: 68760102
