

## Detailer for quick paint sealing with high-gloss polish effect

The highly efficient, water and dirt-repellent preservation of Dr.Stöcker Gloss Detailer EasyShine protects and cares for smooth and varnished surfaces made of wood, glass and plastic without strenuous polishing. The treatment deepens the color, provides a streak-free brilliant shine and original smoothness. The product also offers protection against rapid resoiling. Dr.Stöcker Gloss Detailer is quickly absorbed, is easy to use, prevents micro-damage to the paintwork and guarantees a long-lasting beading effect. Previously applied polishes or similar. Care products are refreshed and supported.
