

Wet wipe and dry wipe in one pack (double chamber)

The Dr. Stöcker windscreen cleaning cloth is an innovative product that combines a wet wipe and a dry wipe in a practical double-chamber pack. This specially developed combination enables effective cleaning of your car windows in just one operation. The wet wipe efficiently removes dirt and insect residue, while the dry wipe ensures a streak-free shine without leaving water marks.

Application / Dosage

Tear open the pack at the mark.
Quickly clean the windshield and wiper blades with the wet wipe.

Immediately polish cleaned windows with the dry cloth.

Available container types

1 box of 500 pieces

Art-Nr.: 681200
