

**Acid cleaner based on phosphoric and sulphuric acid for stainless steel and aluminium**

FOSGALON TI S 10 is an acid cleaner based on phosphoric and sulphuric acid for cleaning tanks, silos or containers of container vehicles. FOSGALON TI S 10 offers effective and fast cleaning power and removes various mineral soiling such as scale, rust, cement, copper abrasion from overhead lines and plastic abrasion. Double concentrate, extremely economical and ideal for biological water treatment. FOSGALON TI S 10 is suitable for tankers made of stainless steel and for transport silos made of aluminium. It is also useful for cleaning the outside of containers.

**Application / Dosage**

Use with spray heads. Application concentration depending on soiling: 1

– 3%.

Undiluted or pre-diluted with water 1:10. Depending on the soiling, the same also applies here. In case of heavy soiling, it is useful to steam the surface to be treated for approx. 10 min. Finally rinse off with water.

**Max. Exposure time**

Do not allow the product to dry!

**Available container types**

Fass, 210 l  
Art-Nr.: 664928

Can, 25 l  
Art-Nr.: 664912

IBC, 1000 l  
Art-Nr.: 664929

**Product properties**

- extremely economical
- ideal for biological water treatment
- suitable for stainless steel tankers and aluminium transport silos
- also for cleaning the outside of tanks
- without dyes and perfumes

**Technical data**

- pH value: 0,05
- Density: ca. 1,29 g/ml
- Colour: clear
- Scent: characteristic
- Frost resistance: bis zu +4 °C
