

SP801 – Aqua Fresh

Web: <https://www.dr-stoecker.de/en/products/water-treatment/aqua-fresh-sp801/>

Fully degradable additive for service water maintenance

Aqua Fresh acts safely, sustainably and preventively against odor development in service water circuits. Odor-causing sulfides are oxidized and thus rendered harmless. However, the product is not suitable for biological treatment plants.

Application / Dosage

After initial surge dosing, if necessary, continuously add approx. 10 to 15 ml per vehicle via the dosing

pump.

For first application use approx. 250 ml on 1,000 l of waste water.

Available container types

Can, 25 l

Art-Nr.: 680712

Product properties

- completely degradable
- odorless
- prevents odor formation in process water
- not for biological treatment plants
- helps quickly and reliably with already bad smelling service water by shock dosing

Technical data

- pH value: 3
- Density: 1,13
- Colour: clear
- Scent: odorless
- Frost resistance: + 4 °C
