

Special product for cleaning heavily greased and sooted surfaces

The KaChem clean Motorreiniger from Dr. Stöcker is a powerful special cleaner that enables thorough and efficient cleaning of engines and machines. Thanks to its versatile application methods, it can be used flexibly and achieves impressive results.

Application / Dosage

The cleaner is diluted with water and then applied with a pump sprayer, sponge, brush or scrubbing brush.

After the reaction time, the dirt is rinsed off with a high-pressure cleaner – for quick and effortless cleaning.

Machine and engine cleaning:

The product is used in a concentration of 10-25% depending on the degree of soiling.

Max. Exposure time

Around 5-15 minutes

Available container types

Can 20 kg

Art-Nr.: 7761920
