

Concentrate for washing the exterior of painted and metallic surfaces on cars and trucks

KaChem clean Shampoo blau from Dr.Stöcker is the ideal solution for thorough and gentle exterior cleaning of cars and trucks in brush washing systems.

With its excellent foaming ability, it cleans painted and metallic surfaces effectively and at the same time ensures optimum care. Thanks to the good self-cleaning properties of the washing brushes, a consistently high cleaning performance is guaranteed, while deposits are reduced.

Application / Dosage

When used in automatic car washes, the concentration at the spray outlet should be 0.4 to 2% (i.e. 4 to 20 g/l).

Available container types

Can 20 kg

Art-Nr.: 7712020
